*A1 Same Artwork both sides

**A2 Different Artwork each side

100% Biodegradable

Manufactured in Europe
made from 100% natural latex

Helium Float-Time

10" or 12" balloons float
for approx. 8-12hrs when filled
with helium gas

Inflate as late as possible on the day required

»» **Ink Change? Sure . . .** Changing the ink colour during a print-run can be done for an extra £12 + VAT
Example: 1 col print of the same design on 500pcs of black balloons (white ink) and 500pcs of white balloons (printed black) could be supplied for the 1000pc price plus £12 for the ink change.

»» **Mix Balloon Colours? No problem . . .** Mixing your balloon colours doesn't affect the price of the run, just make sure to choose balloon colours that suit your ink colour. For example you may like 300pcs of white balloons, 300pcs yellow and 100pcs of red balloons all printed with a black ink. As long as the artwork design is the same for all balloons, then the 1000pc price would apply.

Helium Fill Accessories

Fitted Ribbon Values for 10" or 12" Latex Balloons

- Self Sealing one-way valve so no tying knots.
- One metre of white ribbon attached in a coil, just pull to release.
- Pre-fitted to your 10" or 12" printed latex balloons for ease.

Non Biodegradable

- Not recommended for Balloon Releases as the ribbon valves will tangle in a Balloon Release net.

Helium Float-Time

- 10" or 12" latex balloons float for approx. 8-12hrs when filled with helium gas
- Inflate as late as possible on the day required
